ABOUT THE ORANGEVALE VIEW

The "Orangevale View" – the ultimate, award-winning community newspaper – serves Orangevale and surrounding areas, including Fair Oaks, Citrus Heights, and Folsom, CA. With a present estimated readership of more than 37,000, this FREE paper grows with every issue. It is delivered twice a month to at least 15,000 residents' homes and to more than 100 high traffic locations.

The views and opinions printed within are not necessarily those of Publisher Brad Tatum or the Orangevale View staff. Rather, the views and opinions expressed are those of each individual contributor.

SUBMISSION POLICIES:

Submissions from you, our readers, are always welcome, for this is YOUR newspaper. We await school, church, or sports team materials, anniversaries, births, special occasions, memorials, or other items of interest. Donations are encouraged and accepted for anniversaries, births, and other special milestones and announcements. Publication is at the discretion of the Orangevale View staff.

Requirements are simple:

- (1) Acknowledge that either you are the author or you have permission to publish from the original author;
 - (2) Articles should not exceed 300 words. We like Community Calendar items of 45 words or less.
 - (3) Format: Microsoft Word format with photos at least 300 dpi JPEG or PDF.
- Please use this format so we do not have to send your work back to you

for corrections.

(4) The View does not verify the accuracy of your submissions, and in some cases, dates and information are subject to change. (5) Please email submissions, to YOUR newspaper. The email address is editor@ovview.com. It is you, our contributors, readers and advertisers who make the Orangevale View a newspaper you want to read.

LETTER TO THE EDITOR

The 4th District Congressional Debate: The Triumph of "Fiscal Responsibility™"

© by Mark Dempsey

The debate for the 4th congressional district occurred October 4 in Auburn. If you didn't attend, you can still see it online. (<https://www.youtube.com/watch?v=wXyDO26mQ78>). Both candidates agree: "Fiscal Responsibility™" is what to pursue.

Congressman McClintock repeated his endorsement of the trickle-down economics we've enjoyed since the Reagan years. In a previous radio address, McClintock claimed there's really only one proven way to revive an economy: reduce top marginal tax rates the way Reagan did in the '80s.

Q: But the heyday of the American middle class--when only one parent needed a

wage-paying job, and college graduation didn't mean a debt millstone around the graduate's neck--wasn't that when those top marginal rates were high (70 - 90%+)?

A: Yes!

Nevertheless, McClintock waxed nostalgic for the good old days, even though Reagan's "Morning in America" was no more than an average business cycle recovery. (source: Paul Krugman's Peddling Prosperity). McClintock even laments the loss of low or free college tuition! The forehead-smacking truth: Reagan himself ended free college in California. In fact, since 1972, Federal subsidies for higher education have diminished 55%. (Gosh! I wonder why tuition keeps going up!).

Perhaps accurate information is beside the point here, but the problem isn't just that such

lies are despicable, it's that McClintock seems to sincerely believe them. Unfortunately, delusional thinking seldom produces good public policy.

Is the alternative better? His opponent, Dr. Derlet's policies are less delusional than McClintock's by a wide margin, but both candidates agree on Fiscal Responsibility™: budget balance is something to pursue. It's as though they believe a government which creates currency has a debt "burden" just like households who use currency!

But it's different...really, really different.

Americans use "debt-based" currency. Bank account holders have an asset (their bank account), which is the bank's liability (debt). Write a check, and you assign the bank's debt to the payee. Dollars are

checks made out to cash in fixed amounts, payable by the Federal Reserve bank. The Fed carries that currency on its books as a liability. Central bank "debt" is the money!

Imagine your bank encouraging you to worry about the size of its debt to account holders. "Let's see how we can reduce the size of your checking account..." Where does that happen, at the Bank of Crazy People? Yet we somehow believe reducing central bank debt is always good!

Historically the U.S. reduced its "debt" significantly seven times since 1776. The last such reduction was the Clinton surplus. The preceding time occurred in 1929. Andrew Jackson even paid the entire national "debt" in 1835. What happened every time after those "debt" paydowns? Answer: a Great-Depression-sized hole in the economy, the worst of which

was the Panic of 1837.

So reducing national "debt"-in quotes because it's fundamentally different from household debt--can be bad! And remember: the Fed can make dollars without limit. According to its own audit, it pushed \$16 - \$29 trillion out the door to cure the frauds of the financial sector in 2007-8. (And where's the predicted inflation?) Yet, somehow when it comes to grandma's Social Security, not Ponzi capitalists, "Whoops! We're out of money!" ... or so McClintock claims.

So...Derlet is better, but still does not understand that a "balanced" budget is anathema to currency creators even if it works well for currency users like households. [sigh!]

COUNTY SUPERVISOR DISTRICT 4 CANDIDATES RESPOND TO QUESTIONS FROM OV COMMUNITY

SUE FROST
Candidate for County
Supervisor - District 4

1. How do you plan new business for OV...WHAT IS THE VISION

a.GLOVE positions Orangevale for future funding for infrastructure improvement over time. I'll continue to work with GLOVE and the Orangevale Chamber to support businesses in Orangevale.

i.MISSION: GLOVE is an organization that contributes to making Greenback Lane a beautiful, economically thriving, vibrant and sustainable business corridor. GLOVE works together with Orangevale business owners, property owners, Sacramento County agencies, the City of Folsom and other stakeholders to implement this mission.

ii.PURPOSE: To recognize Greenback Lane not as a transportation thoroughfare, but as a thriving business district, including historic Orange Vale. Imagine the

possibilities...

b.We have to demand better "customer service" from County Departments. Too many business owners have told me that it is complicated and takes too long to get permits - or even answers - from County Departments. That has to change. We need to include a "customer service" component in budget and personnel reviews.

c.Homelessness is one of my top priorities, starting with enforcement because aggressive homeless are impacting businesses and residents.

d.I am a member the Greater Sacramento Area Economic Council, the County and BOS need to build a stronger relationship with business retention and recruiting groups to ensure there is an effort to help business growth that fits Orangevale, and not just big corporate businesses for downtown.

2.How about how transients with drug and other issues are pushed across the borders into our unincorporated area by neighboring cities.

a.My policy will be "Enforcement First" - we need to ensure residents and businesses are protected from illegal camping, aggressive panhandling, etc.

b.To really tackle the problem, which is growing all over the region, we have to work regionally. When the City of Sacramento pushed the homeless out of the Arena Zone and tore down the homeless camp, many of those homeless moved east into Carmichael, Fair Oaks, Citrus Heights & Orangevale. That did not

solve the problem, it just pushed it out of Downtown Sacramento into our communities.

c.During my year as Mayor in Citrus Heights we formed the HART - Homeless Assistance Resource Team. HART is dedicated to bringing local resources to Citrus Heights. I will continue to do what I have been doing and expand my efforts to help Veterans and reduce homelessness in the county.

d.This is a complex issue and one that is growing in the Region. We should start with more boots on the ground parole officers to manage the AB109 and Prop 47 prisoners who have been

released. Then I will work with neighboring Cities, Sheriff, Faith Community and Businesses to expand resources in Orangevale.

3.What are we doing right/ or can do better, as far as being eyes and ears for law enforcement and Orangevale.

a.We need to look at models that are working; for example, Citrus Heights has over 32 Community Policing programs where Police are partnering with the community. They don't just respond to crime but the work to prevent crime. The Sheriff's Department has fewer Deputies covering a larger area, which is one reason I support "more boots on the ground," and will work with communities to see which programs could work in their communities.

b.Public Safety should be prioritized in the budget - we are still behind where we need be, especially in regards to Probation & Parole Department which prevents crime and ensure people do not re-offend.

4.I want to know what you plan to do specific for unincorporated parts of Sac County to deal with transients , the panhandling and all the criminality that goes with it.

a. The County has a panhandling and no camping ordinance. I support enforcement.

b. I will prioritize public safety as a top budget priority.

5. Can churches be banned from giving out food in residential neighborhoods

a. We need to ensure that good intentions do create bad results. I would not support an ordinance banning churches from helping those in need, but would work with them to ensure they understand if their efforts are exacerbating problems for neighbors.

6. I would like to know if the initiative to legalize marijuana in

California passes, how do you think pharmacies and medical marijuana personal growing in the county will change to comply with the law?

a. Prop 64 is badly written and has a number of flaws, but if it becomes law, Cities and Counties will have to implement

7. I would also like to know your environmental goals for the county.

a. I the Founding president of the Citrus Heights Green Team, which focuses on free-market means to encourage green building, energy, and recycling programs.

b.I want to ensure we are preserving farm and rural spaces by encouraging growth in transit zones and near jobs.

c. I want to ensure that we are building and maintaining park and trail programs that do not take

d.I support CEQA but I think it is often abused for political purposes and think we need to curtail frivolous lawsuits.

8.What are your goals for Orangevale?

a.One the great things about District 4 is the diversity of our communities - and I will work hard to preserve the unique character of each of them. Orangevale has a unique heritage that includes equestrian and rural feel that we need to protect.

b.We do need to find new ways to improve traffic, pedestrian and bicycle safety, especially around our schools.

9. How are you planning on stopping hazard from being the thoroughfare that sunrise and watt were supposed to be? the constant industrial traffic on hazard is dangerous and costly splitting our community in two. Oak needs to also maintain its more rural nature. it is getting pretty crazy out here. Slowing down the speed on Hazel from 40 & 45 aka 90 mph, to maybe 35 & 40 with big signs!! Like they did out at Grant Line & Wilton Blvd. in the rural area of Elk Grove.

a. I think the county pushed the Hazel expansion to appease Placer County interests who wanted a bypass to avoid traffic problems on Hwy 80. We need to push harder to complete the Hwy 80 improvements, and look to improve traffic controls on Hazel. For example, as a Councilwoman I supported lowering speed limits, modifying stop lights, and other improvements to reduce traffic problems.

10. What's your stance on prop 64?

a. I oppose.

11. What is your opinion / position about spot rezoning in Orangevale

without a master plan update?

a.Any re-zoning would need to be carefully vetted with the CPAC and aligned with the goals of the community. Orangevale wants to retain their rural feel and I will support that objective.

b. Creating special improvement districts and a plan can actually position Orangevale for grant funding for specific projects that can help revitalize an area and begin to attract/ improve business or community facilities.

12. Do you envision Orangevale as an opportunity for infill development?

a. There are infill opportunities all over the County. I'm sure there are opportunities in Orangevale as well. The challenge is to identify what the Community wants and deliver something that is consistent with the local needs and desires.

13. What is your opinion / position on maintaining the rural agriculture zoning of Orangevale?

a. I will stand with Orangevale to protect its unique characteristic.

14. What is your opinion / position on allowing churches and residential care facilities in rural land in Orangevale?

a. There may be some projects that fit the community, but we have to ensure that Planning, CPAC and an early and strong public process ensure the residents are engaged and listened to.

15.What is your opinion / position that churches and residential care facilities should pay rezone fees and commercial property fees instead of a use permit fee? As essentially the resulting development cannot revert back to its original rural land zoning with large commercial size buildings.

a. These are two different types of facilities and should be looked at separately. I would need to look at the current practices and fees - and the proposed changes- in detail before committing to support a specific action. As a general rule, I think costs of changing zoning need be fairly applied across the board.

16. How can we get Sacramento Steps Forward to get Navigators in OV -

a. Little effort has been made to deal with homelessness outside of Downtown to date, but it will be one of my top priorities after I'm elected. We need to start by ensuring resources are allocated fairly, build partnerships with Citrus Heights, Folsom and the County to bring resources like SSF to the County.

COUNTY SUPERVISOR DISTRICT 4 CANDIDATES RESPOND TO QUESTIONS FROM OV COMMUNITY

MIKE KOZOWSKI
Candidate for County
Supervisor - District 4

1. How does he/she plan new business for OV...WHAT IS THE VISION

Business growth is an organic process but needs to start with a plan. Working with the Orangevale Chamber of Commerce and others in Orangevale to craft a plan will be a key task for me as supervisor. But any plan will need some basics to be addressed first:

a. Making sure the county's building departments are able to simplify and fast track the review and approval of projects is an elemental part of my economic growth plans for the county, for district 4 and specifically for Orangevale.

b. Utilizing all available legal processes for removing blighted or derelict structures to clear the way for new ideas and growth. The Community Prosecution Unit is an example is one tool that can be used to address properties that are contributing negatively to their surroundings.

2. How about how transients with drug and other issues are pushed across the borders into our unincorporated area by neighboring cities.

The Deputy Sheriff's department and the police forces of the incorporated cities already work to coordinate their efforts and need to continue to do so. Some other factors contribute to this perception. While it is not illegal to be homeless, transient or for that matter addicted to drugs, we do have a variety of measures in place that are intended to reduce panhandling and have created areas that are "safer" than others for transients who are trying to avoid conflict with law enforcement and violation of anti-panhandling

efforts. Reviewing these measures (Folsom, Citrus Heights, and County ordinances) and finding a comprehensive plan will be difficult but must be looked at carefully with Local crime watches and law enforcement. I will use my Orangevale community meetings to try and pinpoint specific issues and build consensus for a comprehensive plan.

3. What are we doing right/ or can do better, as far as being eyes and ears for law enforcement and Orangevale

Simply being so engaged is the big success of the Orangevale Crime Watch and everyone who is passionate about Orangevale being safe for families and business. To implement the strategies utilized by the Community Prosecution Unit, it is imperative that patterns of crime or disruptive activity be documented. Orangevale residents are already careful observers, we simply need to put that force to work on specific targets to create the case for change at specific locations. This process is not glamorous, but has proved successful in other parts of Sacramento county and elsewhere.

4. I want to know what he plans to do specific for unincorporated parts of Sac County to deal with transients, panhandling and criminal activity that goes with it.

As I suggested above, further coordination of local ordinances that drive movement of transients and homeless folks to congregate needs to be an ongoing process. Along with that providing services to house and treat the mental health and dependency issues that often are at the heart of homelessness must be better distributed throughout the county to serve that population where we find them. Doing that will reduce the time spent by the Sheriff's department and the cost of using the county jail and local emergency rooms for temporary shelter and treatment, which is currently the only option in most cases in Orangevale. Transiency and homelessness are problems that will never be eliminated, but we can do a much better job of management and giving a real shot to people who find themselves down and out to get on their feet

again.

5. Can churches be banned from giving out food in residential neighborhoods

Yes and No, a permit is required and some rules apply, but most churches are located in residential areas and most if not all have a specific mission of literally serving their community. I am open to discussing specific issues that may be causing an issue, but a blanket prohibition is probably not appropriate.

6. I would like to know if the initiative to legalize marijuana in California passes, how do you think pharmacies and medical marijuana personal growing in the county will change to comply with the law? I would also like to know their environmental goals for the county.

Proposition 64, would legalize the sale and production of marijuana, but would leave regulations regarding the location of growing and selling operations to the local cities and counties. Also left local is the ability to ban entirely the growing of marijuana. More detailed information is available at: [https://ballotpedia.org/California_Proposition_64,_Marijuana_Legalization_\(2016\)](https://ballotpedia.org/California_Proposition_64,_Marijuana_Legalization_(2016))

I support continuing the current ban on cultivation in Sacramento County. The full ordinance can be read at: http://qcode.us/codes/sacramento-county/?view=desktop&topic=6-6_88-6_88_010

7. What are their goals for Orangevale?

How are they planning on stopping hazel from being the thoroughfare that sunrise and watt were supposed to be? The constant industrial traffic on hazel is dangerous and costly splitting our community in two. Oak needs to also maintain its more rural nature. It is getting pretty crazy out here.

The greatest amenity we all enjoy also complicates our traffic, the American River. With just the four crossing points at Watt, Sunrise, Hazel and Folsom Blvd, any business or residential growth will have the effect of adding traffic to those four roads. Recent improvements to Hazel's bridge and lane widening north of the

COUNTY SUPERVISOR DISTRICT 4 CANDIDATES RESPOND TO QUESTIONS FROM OV COMMUNITY

MIKE KOZOWSKI Candidate for County Supervisor - District 4

Continue from page 9

bridge had the not-surprising effect of adding more traffic. We can balance that effect somewhat by careful traffic planning (speed limits and signals) and road maintenance. I will work with residents on specific problems on all roads. I agree that Oak Avenue needs to be looked at comprehensively, it has a distinctive character that should be preserved while also finding strategic ways to allow traffic to move freely.

8. Slowing down the speed on Hazel from 40 & 45 aka 90 mph, to maybe 35 & 40 with big signs!! Like they did out at Grant Line & Wilton Blvd. in the rural area of Elk Grove. I would be happy to consider that.

9. What's their stance on prop 64? I oppose Prop 64 for the very simple reason that marijuana will remain illegal on the federal level and marijuana businesses will as a result continue to operate on an all cash basis. This will leave California to resolve substantial issues of accounting for their sales for tax collection purposes and then those records could become the basis of federal prosecution. This discord between federal and state laws invites continued illegal growing and selling. I am not opposed to the safe adult use of marijuana, just feel that the federal rules need to be changed first.

10. What is your opinion / position about spot rezoning in Orangevale without a master plan update?

There is a process for rezoning individual parcels and it can be implemented where a real community need exists and sensible development will result. That is a high bar to clear, but a master plan change is not required.

11. Do you envision Orangevale as an opportunity for infill development?

Of course! Sensible infill development not only can be a catalyst for strategic economic revitalization, but provides useful opportunities to meet AB32 air quality and energy use rules if it also provides mixed uses or direct access to public transit.

12. What is your opinion /

position on maintaining the rural agriculture zoning of Orangevale? The Ag-Residential Zoning designation requires lots of at least 1 acre, and the northern portion of Orangevale zoned this way blends into similarly planned zoning in adjacent Placer County. I suspect there is not pressing reason to change that zoning but would consider it if a parcel owner through proper channels made a request. Please remember that zoning changes are generally not considered if the only argument is that the parcel would be more valuable (for some other purpose) because of the change. I have excerpted the ordinance below for reference.

From the County Zoning Code section 6.2.1.A.2

Rezoning. The boundaries of any zoning district may be changed, or the zoning classification of any parcel of land may be changed, pursuant to this Section. The purpose is not to relieve particular hardships, nor to confer special privileges or rights on any person, but only to make adjustments to the Official Zoning Map that are necessary in light of changed conditions or changes in public policy, or that are necessary to advance the general welfare of the County

13. What is your opinion / position on allowing churches and residential care facilities in rural land in Orangevale?

Churches are allowed in all Residential districts in the county. Orangevale is predominantly zoned Ag-Res and Low density residential. A Conditional Use permit is required from the Zoning Administrator in either type of zoning district. This is a common process across most communities nationwide.

Residential care facilities, may take many forms and are intended for a variety of purposes. The Zoning code allows many types of these facilities with either a conditional use permit granted by the Zoning Administrator or a Conditional Use Permit approved by the planning Commission. This also is a common practice across the country.

A Residential Care Facility's request for a Condition Use permit

would be heard in public of the County Planning Commission meeting. The commission's responsibility is to consider the input of petitioner, the public, neighbors and other community stakeholders. Any appeal of their decision would come before a public hearing of the Board of Supervisors. 14. What is your opinion / position that churches and residential care facilities should pay rezone fees and commercial property fees instead of a use permit fee? As essentially the resulting development cannot revert back to its original rural land zoning with large commercial size buildings.

There is not a rezoning requirement for either use to be located on Ag-Res or Low Density Res zoned parcels. Thus no door is left open for other types of development if the use granted conditionally never comes to pass or if the party granted the conditional use vacates the property. That is specifically why the conditional use permit exists.

There of course are practical barriers to removing a large structure to revert land to agricultural use which are real. I prefer that problem to solve rather than opening Ag-Res land to any permitted commercial use by a rezoning process.

I can infer lots of things from your question but would prefer to have the full context to go any further in response. I am not eager to change the Ag-Res parts of Orangevale, if that simplifies things.

15. How can we get Sacramento Steps Forward to get Navigators in OV

It is simply a matter of funding, which I will be working on with the other supervisors as immediately as possible.

Questions were gathered from social media facebook pages Orangevale Crime Watch and Orangevale Happenings. Local resident Gayle Duckard submitted to candidates for County Supervisor District 4 and wanted to share responses with the Orangevale Community. Both social media sites are managed by Gayle and have 8,000 members.

All are welcome!

Orangevale Cooks

by Suzanne Feblowitz

Ottomon Elementary Principal, Hilda Fernandez, is sharing her family recipe for a breakfast casserole. She served this to teachers at the beginning of the year to celebrate the 3rd year of Artful Learning at Ottomon. With the holiday season quickly approaching, this dish will make the perfect breakfast for when company is in town. Serve with some fruit and sweet rolls and your guests will be in for a treat! If you would like to share a favorite recipe, please send a copy to Suzanne Feblowitz at the Orangevale View (editor@ovview.com). Be sure to include your phone

number or email with your recipe in case we need to contact you. If you wish to remain anonymous, just let us know and we will omit your name.

Ortega Chile Egg Breakfast

20 eggs
 1 cup flour
 Dash salt/pepper
 2 tsp. baking powder
 1 cup butter, melted
 2 cans (7 oz.) diced Ortega chiles
 32 oz. cottage cheese
 2 lb. jack cheese, shredded

Beat eggs until fluffy, add flour, baking powder, salt &

pepper and mix. Then add butter, chilies and finally, add cottage cheese and jack cheese.

Bake in greased 9 x 13 pan. Heat oven to 400 degrees. Cook for 5 minutes at the 400 degrees. Then turn oven to 350 degrees and cook 35-40 minutes more until done. (Knife comes out clean.)

Note: Principal Fernandez doubled the original recipe. This is the doubled version. It makes a thicker version of the original dish. The original (10 eggs, etc) uses the same size pan and same directions.

GRANGE BRAKFAST NOVEMBER 13

We make everything from scratch, every 2nd Sunday monthly,

Pancakes along with fresh juicy Ham from the Orangevale Meat Shoppe . All for just \$6. Large parties are always welcome.

PET OF THE WEEK

Name: Handsome
Breed: American
Staffordshire Terrier
Color: Brindle
Age: 1 year
Sex: Male

Handsome was found as a stray in Rancho Cordova back in August and was brought to the Sacramento SPCA. We don't know too much about his history, but he's a fun and goofy guy! At 61 pounds, Handsome is a big, energetic puppy who is outgoing and affectionate. He loves to run and chase balls. He is learning "sit" and does well on a leash. He may do well with another dog so make sure you bring your dog to the shelter for an introduction. He has been waiting for his forever home, could he be waiting for you? Adoption fee: \$100

CHAMBER NEWS

Chamber Board of
Director Samuel Swenson
- Swenson Law Firm

Employers should be aware that their employees are going to be on social media websites, and not just for personal reasons. Thus, it is important to have guidelines for how you expect your employees to conduct themselves online.

Most of the guidelines for online conduct are common sense, but it is better to outline your expectations for your employees than to assume they know how you want them to conduct themselves online. When participating in social networking activities on behalf of your company,

employees should:

Exercise reasonable judgment and be responsible in what they post. They should only make true statements and not mislead others.

Never disclose confidential or proprietary information online. All ethical rules governing the disclosure of confidential information must be followed.

In most circumstances, clarify that the employee is speaking on behalf of him/herself and not on behalf of the company.

Always be respectful. Threatening, abusive, obscene and other disrespectful language or material should be specifically prohibited.

Take immediate action to correct any errors, including modifying prior posts to indicate you are correcting a mistake.

Comply with copyright laws. When in doubt, the employee should link to another website, give credit to the original source, or simply not use the material.

Obtain written permission from authorized managers to use the company's logo in the employee's social media identity.

Understand that there will be disciplinary action taken if

the employee fails to follow the company's policies regarding online behavior.

Although employers will not monitor employees' use of social media on a daily basis, it is important to have policies in place to protect their company's reputation. Social networking can be an effective tool for fostering relationships and growing your business, but it can also lead to disastrous consequences if your employees do not act professionally. To learn more about creating social media policies for your employees to follow, contact one of the business attorneys at The Swenson Law Firm.

Obtaining the right advice from the start can significantly increase the likelihood of your business being a success. Contact The Swenson Law Firm for help.

WOLF FEST 2016

The threat of bad weather didn't stop the show. Thousands came out to celebrate and support the 5th Annual Wolf Fest. Wolf Fest Country Music Festival's proceeds benefit many local charities including: Casa Jr Rams, New Hope Street Ministry, About Kidz, Cancer Survivors and local Veterans organizations. Thank you to our sponsors: Lasher Auto Group, Coors Light, Quick Quack, Golden Aire Heating and Air Conditioning, Dingus McGees, Orangevale View and Valencia Club.

Want to see your school, church, or team in the paper? It's easy - send us your photos and stories. That's it. Really, that's it. Articles must be 250 or less in a doc file. Must include author's name. Please send us high resolution photos (at least 260 dpi), JPG or TIFF files. Please don't send photos in a doc file. E-mail to editor@ovview.com. We try to print as much community news as possible. Some editing might be necessary. Please keep it family friendly.
