Cantare Chorale of the Sierra Foothills was founded in 1992 to bring the joy of choral music to the citizens of El Dorado and Sacramento counties. Under the direction of Mariia Pechenova, they create an impressive sound inspiring their audiences. The singers, with varied backgrounds, have been fulfilling this mission for more than twenty-six years and continue to expand their sphere of influence. This past April, eight members of the chorale travelled to New York City to sing in Carnegie Hall as part of the 50th Anniversary Celebration of the world renowned King's Singers. Community members may also hear Cantare Chorale at Placeville's Festival of Lights on Friday, November 23rd or at the Capitol Rotunda at noon on Friday, December 7th.

CASA RAM FOOTBALL UPDATE

Congratulations to the Casa Roble Rams football team for finishing a most memorable and successful 2018 season! Their successes over the Patterson Tigers (52-10) and Vanden Vikings (38-22) led them to face the number one seeded Rio Linda Knights for the Division IV CIF Section Title. Although the Rams did not prevail against Rio Linda, Orangevale fans and families filled the stands to capacity in support of the team.

"Our community support has been tremendous", said head coach Chris Horner. "From coming out and packing the stands each and every game, to most recently raising over \$26,000 for the Players for Paradise campaign, I can't put into words how moved I am by the overflowing support of our community."

"I'm also extremely proud of our team and the high caliber of young men I've had the opportunity to coach. This season has had so many wins, and not just on the field," he added.

Casa Roble finished the season 11-2, their best in years. A handful of seniors are moving onto the 2019 Optimist All-Star game in January. Those selected include: Devin Carmona, Luke Triplett, Andrew Wyandt and Peter Povey.

Special thanks to all our business sponsors throughout the season and especially to Oilstop and Northstar Collision, our top business donors for the Players for Paradise campaign, and to Badfish Coffee and Tea and Cochran Landscaping as our playoff game sponsors. Most special thanks to the families and friends of the Casa Roble

Rams for their amazing support throughout the season! Go Rams!

PROPOSITIONS IMPACT

Supervisor Sue Frost

Impact of Propositions to Sacramento County
By Sacramento County Supervisor Sue Frost

As has become typical in California, this past November we had a large number of propositions to vote on. Now that the election is squarely behind us and we know the outcome of each proposition, I thought it would be timely for me to explain the immediate impacts that some of these will have directly on Sacramento County and Orangevale.

Proposition 1 (passed). This proposition does a variety of things, but it has two main components that will impact the County. First, it provides \$1 billion in the form of loans to veterans to make it easier for them to get into home ownership. With over 87,000 veterans living in Sacramento County, this will undoubtedly help many of our residents.

The other main component is \$1.5 billion in the form of loans for the construction and rehabilitation of rental housing for people with income below 60 percent of the area median income. A

report from October showed that when compared to the 50 largest markets in the United States, the Sacramento Metropolitan Area has the #1 worst housing crisis. Local builders will be applying for a significant amount of that money since the demand is so high.

This money is not free however, and California will need to pay it back with interest.

Proposition 2 (passed). Simply put, this proposition takes some State money that is dedicated to mental health treatment, and diverts it to housing for the homeless. While the County most certainly needs more money to help with mental health treatment, we also have an enormous need for housing that gets much larger every year. The passing of this proposition will get Sacramento County an estimated \$4.2 million yearly, as well as make us eligible to compete with nine other counties for funding from a pool of anywhere between \$486 million to \$682 million.

Proposition 4 (passed). This proposition authorized \$1.5 billion in bonds for the construction and expansion of children’s hospitals. Locally, that means UC Davis Children’s Hospital will receive \$54 million as a one-time payment.

As with Proposition 1, California will need to pay this money back with interest.

Proposition 6 (failed). This proposition would have repealed the “gas tax” that was approved by the legislature last year, and since the tax was already implemented, nothing will change now that

the proposition did not pass. But now that we know the gas tax is here to stay, here is what to expect:

On average, Sacramento County will receive around \$25 million yearly to help with maintenance of the roads. But while this may seem like a lot of money, the reality is that Sacramento County needs around \$50 million yearly to just keep up with the deterioration of the roads, and we would need even more than that to start trimming down our \$700 million backlog of needed road repairs. More investments will need to be made if we want our roads to be at an acceptable level, either in the form of switching our spending priorities, or more taxes. If you have followed my past articles, you will know that I support switching priorities without raising taxes.

Thank you for reading – and as always, if you want to contact me call me at 916-874-5491, or e-mail me at SupervisorFrost@sacounty.net.

HAPPY ANNIVERSARY HAYDEE & VIKTOR HEGYESI

Dear Editor,
I fell in love with Orangevale the day I met my husband here years back. We fell in love in Orangevale, and I would love to see if we can make this announcement on the next issue of Orangevale View.

Our anniversary is coming up next month. We got engaged December 19, 2017 and had gotten married this year in Orangevale July 5th, 2018. Attached you will find a photo of us, which was taken at the place we met, our home, here in Orangevale. I love reading Orangevale View. I fall in love with Orangevale every day and have grown fonder and fonder of this community. Our neighbors are wonderful. Haydee and Viktor Hegyesi

WHY MANY HOME IMPROVERS CHOOSE WOOD FLOORING

Creative home decor can work wonders for your home, turning dull and dreary rooms into warm, homely havens or slick, stylish spaces. However, your options can be limited by the flooring that's installed; it's such an important part of the room, that it's hard to build a theme that goes too far outside the style of the flooring.

That's why if you're installing new flooring, you need to get it right - and that's why most home improvers choose wood.

- Wood flooring has a natural, understated beauty that instantly suggests style and class.

- It's highly versatile & can suit both modern & vintage decors with ease.

- Wood flooring can be bought in a huge range of materials, colors, & finishes, making it a great starting point for building a decor theme around.

- With quality wood flooring, you can sand it down & refinish if you decide your room needs a dramatic new look.

- It's highly durable & resistant to damage, and most minor wear and tear over the years only adds to its character.

- It's easy to keep clean with a quick sweep and mop.

- Wood in a paler finish brings light & a sense of spaciousness to problem smaller rooms.

- Supple, flexible wood is easier on your feet and joints than cold, hard stone or tiled

surfaces.

- There are plenty of sustainable options such as bamboo and cork to choose from, and you can even buy reclaimed wood for the ultimate in eco-friendly flooring.

- And for those whom need to meet a budget, there are many engineered wood flooring options available.

Any home improvement project that involves renewing your flooring is a major effort, and it's important to choose a material that looks great but will also stand the test of time. For smart home improvers, wood flooring is a time-tested winner.

CHRISTMAS LIGHTS IN ORANGEVALE, MERRY CHRISTMAS!

As Christmas approaches, twinkle lights are slowly coming out.

If you live close to Orangevale, I suggest that you come by Dovewood Court off of Walnut Ave (it's South of Greenback and North of Madison.)

The holiday lights are installed by all the neighbors on that street. It is a requirement in case you wanted to purchase a home there (the people who live there don't move often, though.) A quite special Home Owner Association (HOA) rule—there

are more places in the US where Christmas Lights are actually not allowed, believe it or not!

Each neighbor has its own special thing. Puppets in small boxes, large Santa, wheels made of lights, deer and bears, planes and houses, the Grinch, nativity scenes, castles, the gingerbread man, licorice. It's just like in a Christmas movies. A must see for kids and adults alike.

The times and dates for 2018 were: Dec 2 till Dec 26 from 5pm till 10pm.

In general, the rule is that they open on or after the first Sunday

of the month of December and they close on the 25th or 26th. For sure, go before the 25th to not miss that absolutely resplendent display of lights, musics, and cheers.

Each time I go there, there are many children and adults who stand in awe in front of these magnificent displays of light!

During the week, you should be able to find parking space along Walnut. Parking at the Christ the King Lutheran Church or The Orangevale Grange parking lots can be the best way to get a good parking spot and support local organizations.

'Tis the season! It is time to plan for the family get-togethers and let the celebrating begin! This recipe from Haydee Hegyesi is one to get excited over because it is economical, easy to prep and can be stored in the freezer. This is the perfect finger foods or appetizer to bring to the festivities ahead!

If you would like to share a favorite winter recipe, please send a copy to Suzanne Feblowitz at the Orangevale View (editor@ovview.com). Be sure to include your phone number or email with your recipe in case we need to contact you. If you wish to remain anonymous, just let us know and we will omit your name.

CRAB RANGOON

First is first! Get your tongs ready, some frying oil, and a small deep pan for frying

One packet of wonton wrappers
One box of Cream cheese
Imitation crab meat package
Scallions

White pepper

Mix all ingredients in a bowl. You cannot go wrong with this recipe, so get creative! You can make it your own by adding Cajun spices, garlic pepper, I can go on and on. Try chopped cilantro and even bell peppers! Sweet or spicy, with or without Worcestershire sauce, it is as you wish!

Place filling in the middle of a wonton wrapper, wet sides with water using your fingers and seal shut into triangles or star shapes by folding it in and pinching it shut.

Drop in hot cooking oil, remove from oil with tongs. Tap oil excess and place in wire racks or paper towels.

Enjoy the mouth watering crispy morsel filled with warm creamy and savory filling, one after another, it is a delight! Sweet chili sauce for dipping is optional, but also depending on the flavor, you can try it with your favorite barbecue sauces.

PETACULAR

HOLIDAY HAZARDS FOR PETS

Whether you are celebrating Hanukkah, Kwanza, or Christmas, the holiday season brings us many reasons to be cheerful and happy. Unfortunately, they can also put your furry companions at risk. Holidays don't have to be hazardous though, and with a little awareness and prevention you both can enjoy the season without hitting these toxic traps.

Ribbon/tinsel is fantastic for holiday décor, but if eaten can create an accordion-like bunching of the intestines causing an emergent blockage. Be very cautious with these beautiful but problematic adornments.

Antifreeze (ethylene glycol) is VERY toxic to ALL furry friends. While it's great at keeping our cars in winter-condition, it is fatal to pets unless treatment is initiated IMMEDIATELY. Staggering gait, vomiting and drooling will eventually progress to kidney failure. Purchase the children/pet safe product, propylene glycol instead. Electrical cords are necessary for powering holiday decorations, but chewing on cords can cause electrocution. While the burns in the mouth can look bad, the fluid accumulation in their lungs is worse.

Even a small amount of grapes or raisins can cause kidney failure in some dogs. While not all dogs are susceptible to such toxicity, it's better to be safe than sorry. Xylitol is an artificial sweetener used in many sugar-free products. It can ultimately cause a fatal hypoglycemia & liver failure

if not treated. Chocolate and rich, greasy foods should also be avoided.

While Lily's are beautiful, these are HIGHLY toxic to cats. Even the smallest amount ingested (leaves, flower, stem) can cause severe kidney damage, sometimes leading to kidney failure. Christmas tree water itself is not bad, but watch out if you have additives to keep that tree hydrated and fresh. These additives can cause vomiting and diarrhea. Holly has caffeine like substances in them as well as bitter tasting proteins that can lead to GI upset. While usually not fatal, this can still cause unpleasant tummy distress. Mistletoe is a romantic but toxic addition to the holiday season. It can cause vomiting & diarrhea, heart disorders, difficulty breathing, and erratic behavior. Keep tied up high and away from the family pets. Poinsettia is a known toxic plant to most households, but is actually not as severe or fatal as Lily plants or Sago Palms. If you have any questions or concerns about what your pet may have gotten into, seek immediate veterinary assistance or contact the SPCA Poison Control at (888) 426-4435. Submitted by VCA American River Animal Hospital

HEADS UP, IT'S TICK SEASON!

In fact, it is always tick season, especially in California. Ticks are technically not insects but arachnids, which means they have 8 pairs of legs and are closely related to mites. There are three mobile stages of ticks, larvae, nymph and adult, that all need to feed on a host to survive.

While spring and summer may be the time for the most aggressive tick behavior, fall and winter still have their fair share of tick activity. In fact, the adult Western blacklegged (deer) ticks are most active in the winter months. They live in the wooded areas along the coastlines and are the only tick species in the west that can transmit Lyme disease.

In addition, the Brown dog tick is a tick species that lives mainly indoors, inside homes and kennels where dogs call home. They tend to crawl up walls and curtains and can be found in some false ceilings as well. This tick is cold and drought tolerant, which makes it particularly suited for life in almost any climate.

Unlike fleas, ticks spend most of their time in the environment and only attach to "hosts" to feed. They drop off after each feeding to molt to their next stage and then wait patiently to find another unlucky host. They are

also patient opportunists, that sit at the top of vegetation (grasses, shrubbery) and hope to catch a ride. They don't jump, but just stick their legs out and climb on when something comes close enough. Fortunately, we live in a time where a plethora of veterinarian approved tick preventatives are on the market in the form of topical spot-ons, oral tablets and collars. By keeping your pet on year-round tick prevention, the risk of tick-borne diseases transmitted to you and your pets is dramatically reduced. The Companion Animal Parasite Council website petsandparasites.org provides detailed information on ticks, tick-

borne diseases and ways to combat tick exposure.

President
Orangevale Chamber

Now being in this new role for about a month, I thought I'd reach out with a couple updates following our 2019 Board of Directors strategic planning event. We have so many exciting things tee'd up for 2019. It's a good time to be in Orangevale and to be part of this network of community minded organizations that we call the Orangevale Chamber of Commerce.

Here are a few things we've accomplished recently:

- 20 new members joined since September!
- Revamped website and Chamber branding. Check it out at or-

ORANGEVALE BUSINESS WATCH MEETING

A Crime Prevention Program for Business Merchants

The Orangevale Business Watch meetings are held on behalf of the businesses located in the area of Greenback Lane and Hazel Avenue.

About the Business Watch Program. Business Watch is a crime prevention program that encourages businesses to participate in crime reduction efforts by working with law enforcement. It enables businesses to take an active role in preventing and reducing crime by sharing infor-

mation, raising awareness, and training employees how to recognize criminal activity. Law enforcement cannot be at every corner, so citizen involvement is essential to combat crime.

About the Meeting

This meeting will provide an opportunity for businesses and County agencies, including; Supervisor Frost's Office, law enforcement, code enforcement, community prosecutor and economic development to:

- Report criminal activity, crime trends and code violations
- Strategize nuisance activity reduction
- Learn proper use of Notice of Trespass forms and appli-

cable laws

- Share best contact information
- Discuss future Business Watch Program

BELLA VISTA ECO CLUB CLEANS PARK

Lots of golf balls, pieces of glass, a bunch of styrofoam to-go containers, assorted cans and other 'stuff' filled four garbage bags. Eight members of the Bella Vista Eco Club collected

the dirty items on a Saturday morning in November. Not sure what they would find, the group began their hike south of Negro Bar. It didn't take long to find things that belonged in their bags – not in nature. The most challenging object to pick up? A

mylar balloon caught in a tree. The most surprising object? A classmate's high school identification card. It was returned the next week.
